# 1<sup>st</sup> Round of SLMTA

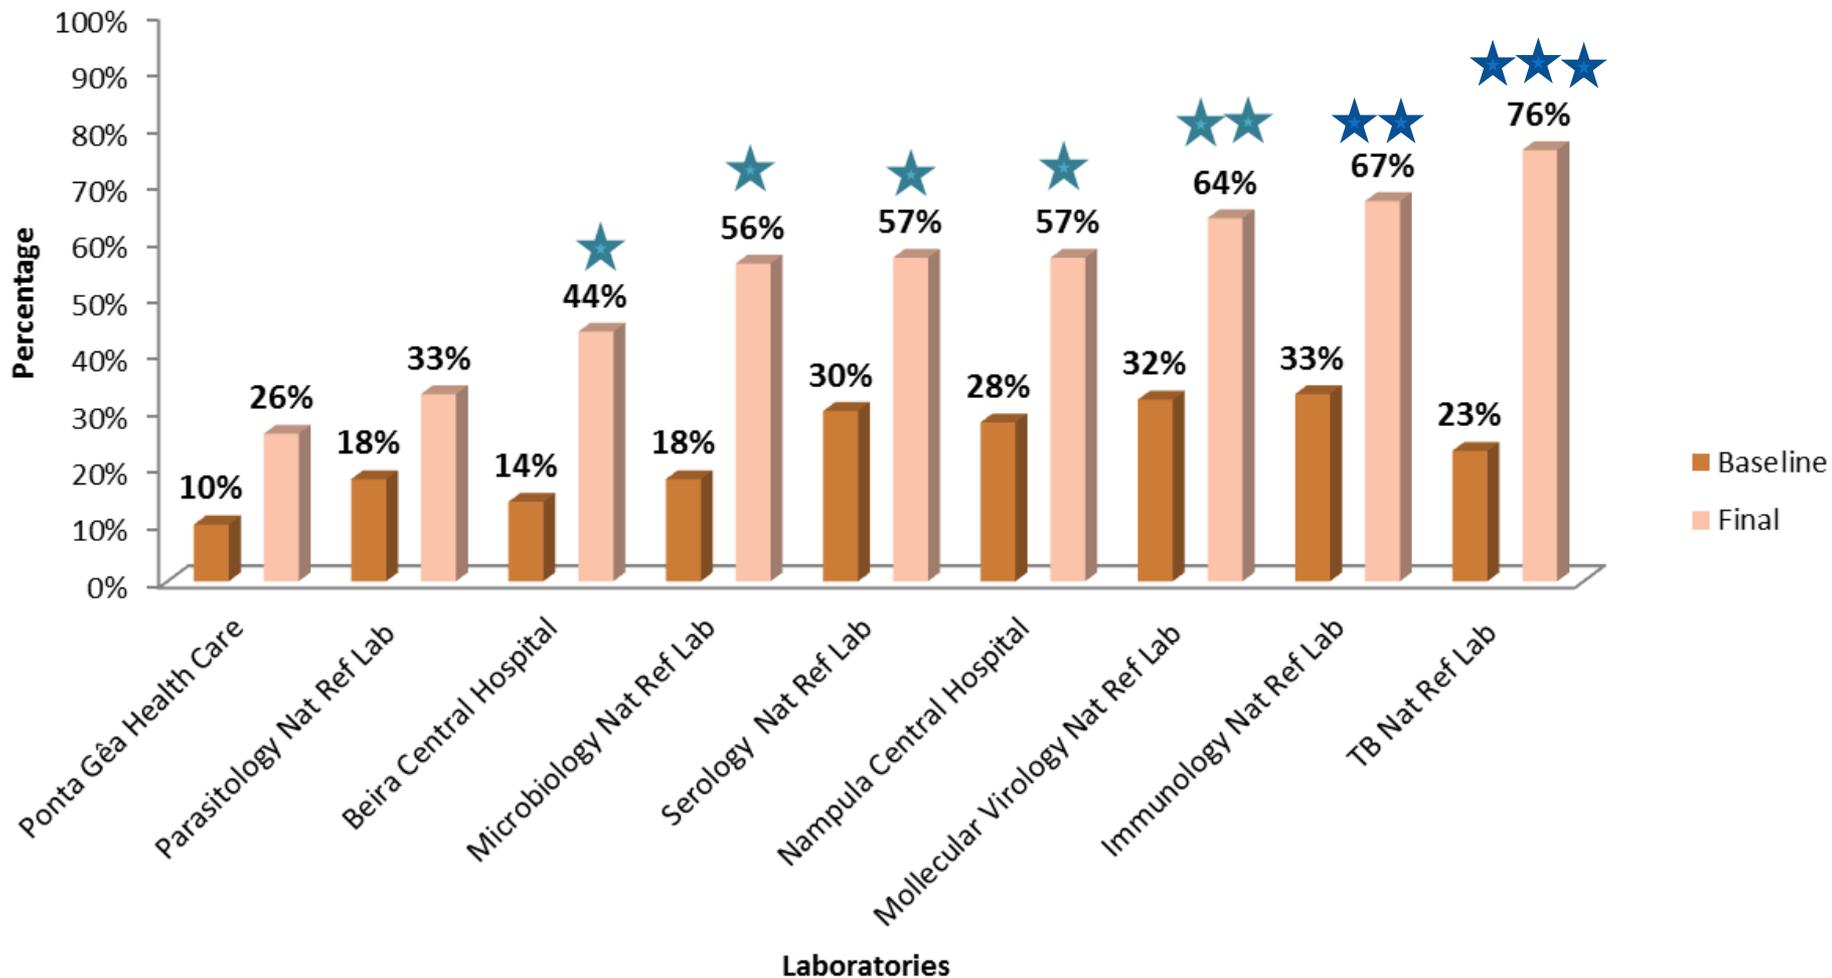

Mentorship Program in Mozambique

9 labs –  
4  
mentors

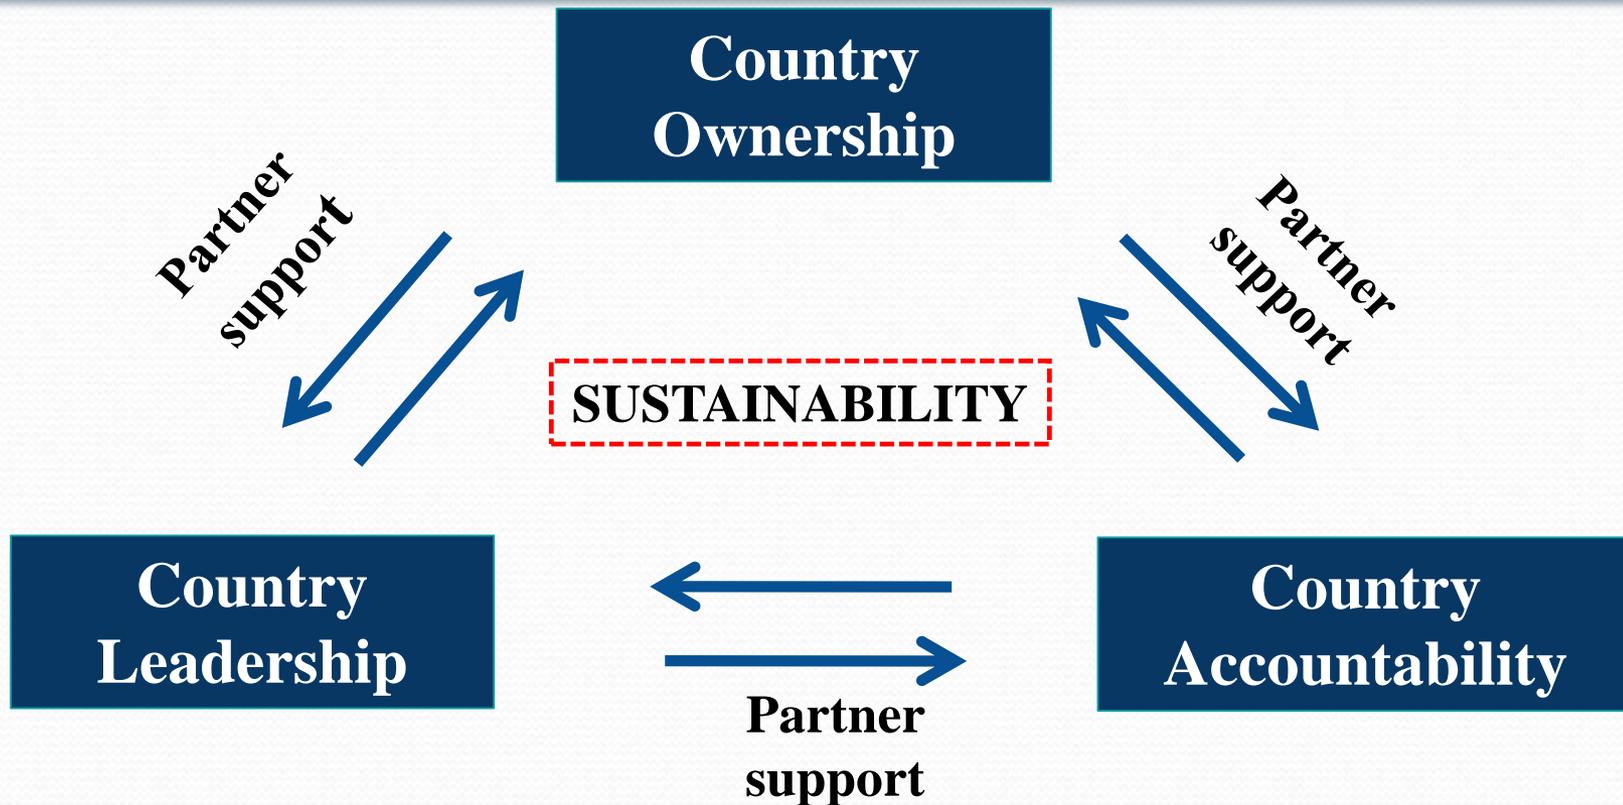

# 1st Round results

# Local accountability and sustainability

**Socio/cultural/economical aspects are essential to mold these inter-relationships and ensure sustainable cap. build.**

## 2<sup>st</sup> Round of SLMTA

---

- Provincial quality managers and assessors trained to the mentorship of laboratories enrolled in SLMTA in there provinces.

- Supervisors advised to emphasize the mentorship during the site visits

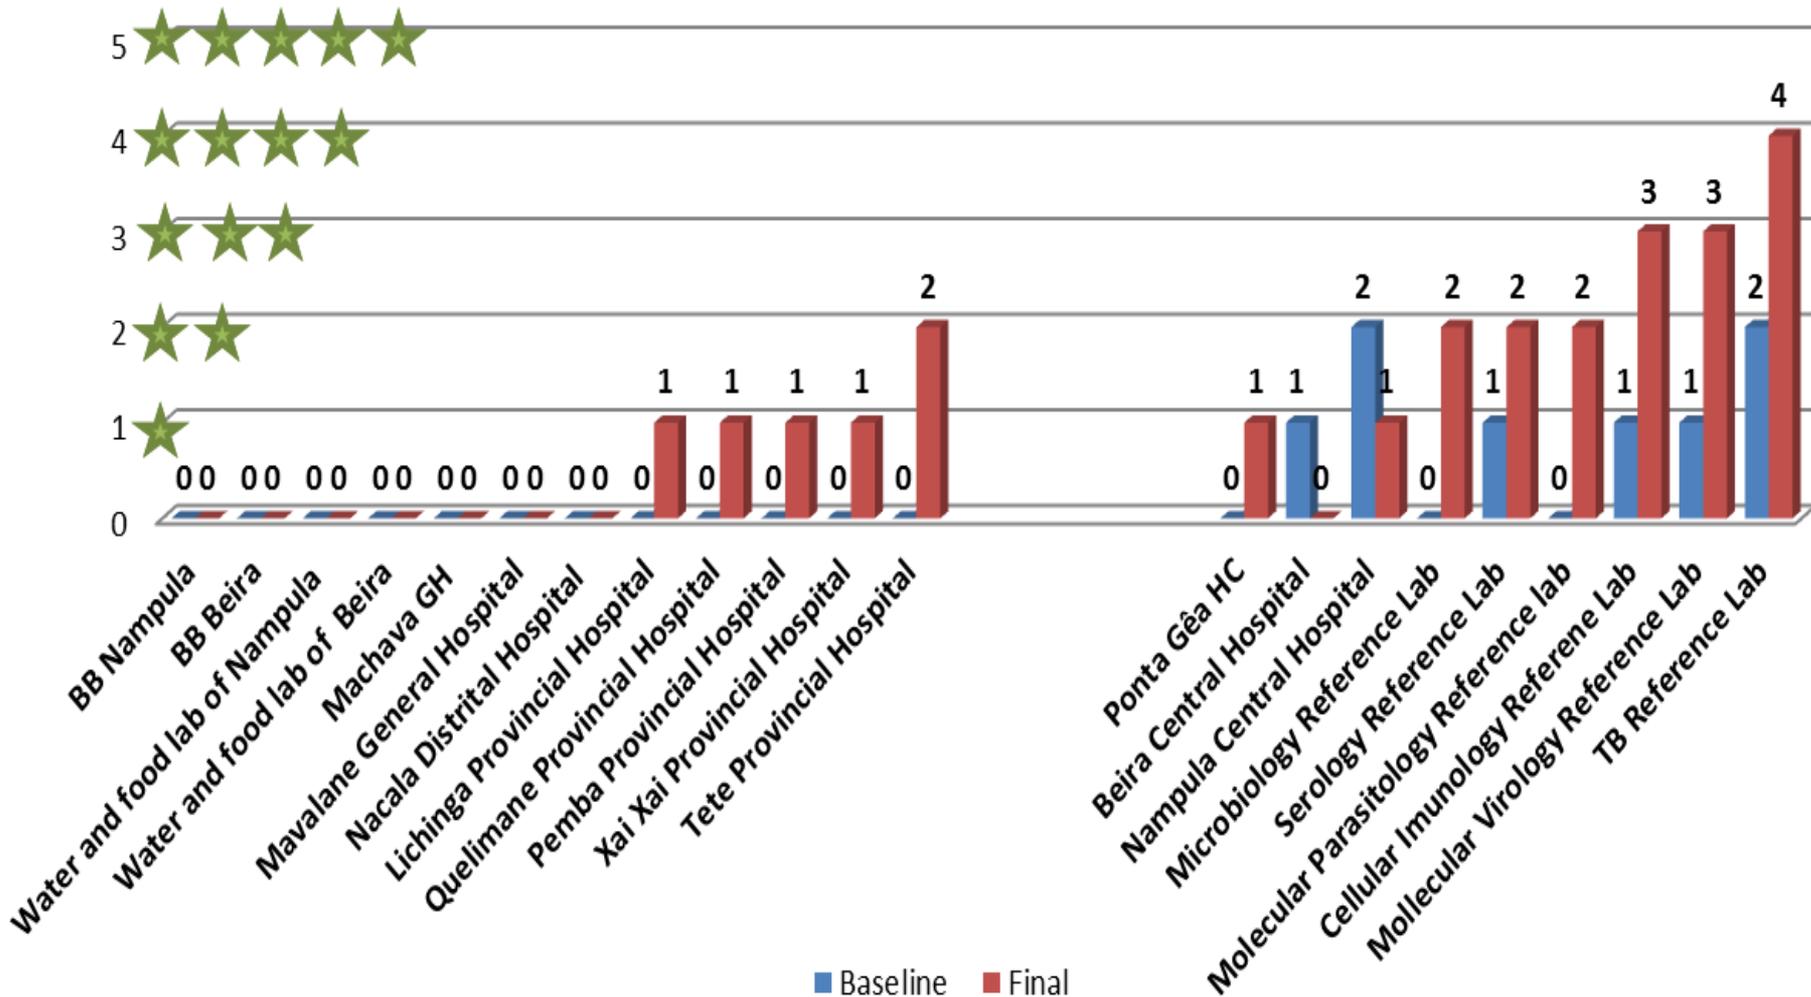

# Results

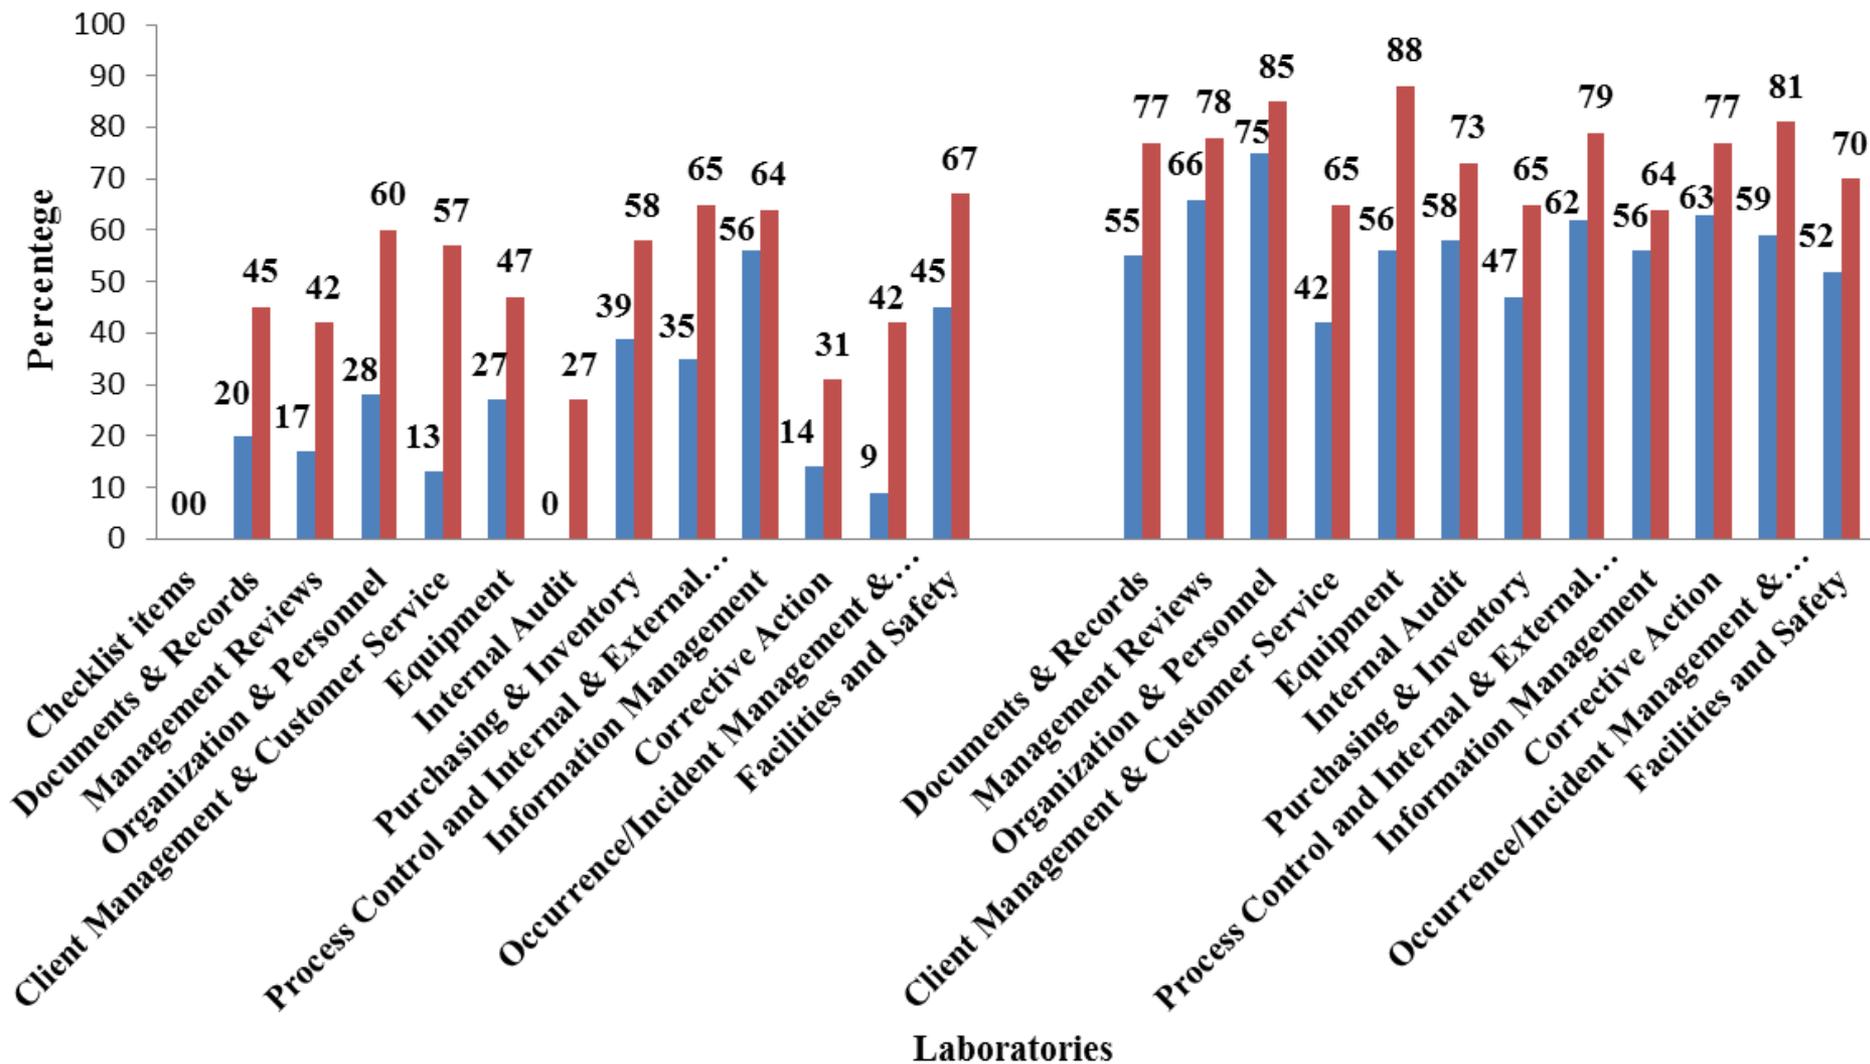

## Labs enrolled in the second cohort

## Labs enrolled in the first cohort

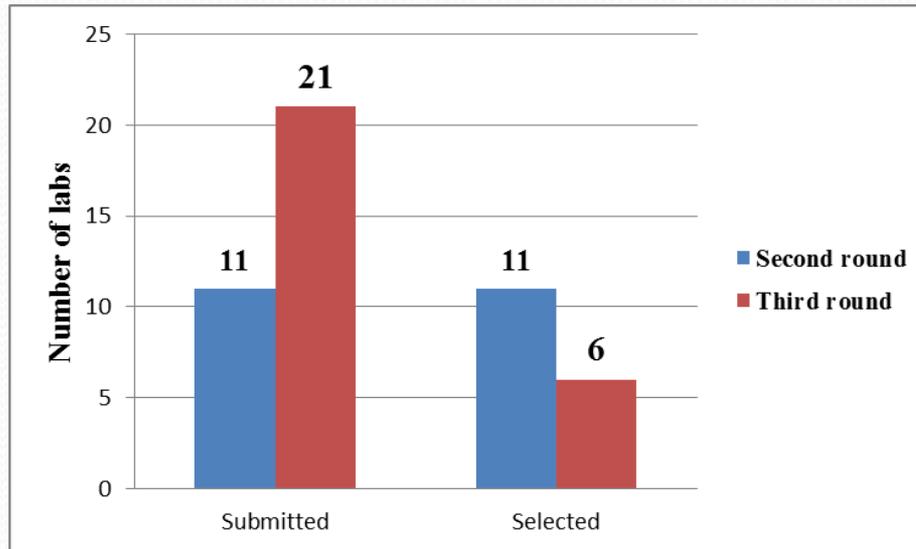

# SLIPTA Checklist overall performance

# Strengthen points

- **Apply for the National Program**

- **Advocacy and direction involved in the process**

# Perspectives

---

- Advocacy in all levels to make sure that the provincial quality managers dedicate 80% of their time to implement, mentor and follow up QMS
- Include the SLMTA tool in the national curricula in all laboratories areas.
- Include SLMTA activities in the strategic plan
